The **Taipa Village Art Space** will mark its official opening on Wednesday, October 5, from 5.30 pm to 7 pm, with the exhibition P.I.B.G.: On the Verge, by local graffiti artist P.I.B.G..

“The exhibition aims to blur the boundaries between two distinct worlds relating to art, space, morality and social issues. It attempts to reconcile these often conflicting and contradictory spheres by deploying a range of antagonistic concepts that convey the sense that art is what matters,” the organisers say.

Local architect and artist João Ó is the curator of the exhibition, which will last until January 8, 2017. This will be P.I.B.G.’s first solo exhibition, according to the organisers.

The Taipa Village Art Space is located in a traditional shop house in Rua dos Clérigos, in the centre of Taipa village. “Taipa Village Art Space seeks to promote the cultural and creative industries in Macau, allowing local and international artists to showcase their work under the ideal backdrop of the village’s colourful history and unique heritage, with the aim of raising their talent and exposure,” the organisers state.
